

The sunshine has been out and so has Reene, Reene has been on a daily walk every day for the past two weeks, she is aiming increase her fitness levels and is taking on new challenges every day, from walking further distances to putting extra weight in her walking trolley to challenge herself.

We are very inspired by reene dedication and resilience and staff have noticed many benefits of a daily walk.

Although the home may be shut for visitors, the pampering sessions for our ladies have not stopped. Our wonderful Lindsey has stepped into action and been busy in the salon. With the popular demand now, the salon is getting redecorated, so it is an experience with a nail bar and tea and coffee station in there too.

If you would like a resident to be booked for an appointment in the salon, please just ring into the home for more details.

Everyday we receive lots of gifts from home made cake, postcards of kindness, plants, magazines and lots of sweets and chocolates. We wanted to share with everyone how much the staff and residents appreciate this, and it gives us that extra morale boost throughout the day. Our residents will be busy replying and thanking you specifically over the next few weeks, in many creative ways.

Cavendish Court Newsletter

We wish Kirsty our best as she sets out for another challenge, within the company. We congratulate Sandra who has now stepped up for the role and is now the manager of Cavendish Court. Sandra wishes to continue all the hard work, throughout the next few months whilst she settles into her new role.

During this unprecedented time, our staff and residents have been superstars. All the staff are rocking the PPE, and we have plenty to go around to keep the staff and residents safe.

We are hoping to be not too far from normality and open our doors to family and friends, as we miss seeing everyone.

Although family and friends may not be physically able to see each resident, our Skype account has been very busy with residents keeping up with the latest technology and speaking to family and friends from across the world.

If you would like to set us a call with a resident, please just ring into the home and we can arrange this at a time to suit you.
